Who we are..

At Spanningtree, we believe we succeed by listening to our client's needs. It is really that simple – We adapt our services to meet client expectations. In doing so, we are 'Simplifying IT'

We have quickly earned a reputation for dependability, hard-work ethic and an attention to detail. Our founder quickly discovered that these traits were very much sought after by our business customers. Business success and growth was soon to follow as word of mouth advertising spread from one customer to the next. Quite simply, these traits have established Spanningtree as a leader in our market.

We are a company that cares and live or die by our reputation. We go the extra mile, which is why our clients recommend us.

What we do..

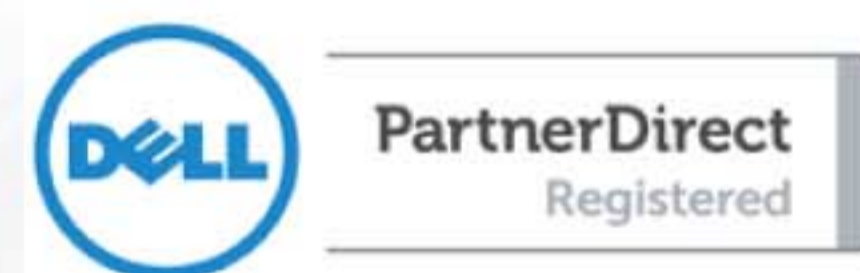

We specialize in all areas of IT consulting and IT Support Services to small, midsize and enterprise clients in Manitoba and throughout Western Canada. We have vendor certified technology specialists in software and hardware available for support and services. Licensed electricians and engineers for cable infrastructure installations and project management staff to install support and manage Technology rollout, relocation and implementation services across Western Canada. With our managed service packages we provide 24x7 support and monitoring of all of your devices.
